Congratulations to Leila Levy on winning the 2018-19 Women's Club Singles Championship defeating Ruth Maserow in the final.

SPONSORS.

Our valued Sponsors are a very important part of our Club community with Sponsors contributing about 10% of our annual revenue. Can we ask that you please be aware of who our Sponsors are, by checking in the Fixture Book or on our website and on the board in the Clubroom. Whenever possible, please support them and make it known to them that you are a member of the Armadale Bowls Club.

Also, if you have an idea or suggestion as to who could be approached as a possible Sponsor, please advise Jack Cooper, Rob Millingen or Buddy Budlender, who will follow up the lead. We all have wide circles of contacts who could provide a source of new Sponsors

In the coming months, a member of the sponsorship committee may contact you personally to ask if you can assist by providing the name of a company or service provider who might be a potential sponsor. Your assistance will be greatly appreciated and benefit your Club.

ARMADALE BOARD OF MANAGEMENT

JOKE OF THE WEEK.

But Professor, We Had a Flat Tire

At NC State University, there were four sophomores taking Organic Chemistry.

They did so well on all the quizzes, midterms and labs that each had an "A" so far for the semester.

These four friends were so confident, that the weekend before finals, they decided to go up to the University of Virginia and party with some friends there.

They had a great time. However, after all the hard-partying, they slept all day Sunday and didn't make it back to Raleigh until early Monday morning.

Rather than taking the final then, they decided to find their professor after the final and explain to him why they missed it.

They explained that they had gone to UVA for the weekend with the plan to return Sunday to study, but, they had a flat tire on the way back, didn't have a spare, and couldn't get help for a long time.

As a result, they missed the final.

The Professor thought it over and then agreed they could make up the final the following day.

The gals were elated and relieved.

They studied that night and went in the next day at the time the professor had told them.

He placed them in separate rooms and handed each of them a test booklet, and told them to begin.

They looked at the first problem, worth 5 points.

It was something simple about free radical formation. "Cool," they thought at the same time, each one in her separate room, this is going to be easy.

Each finished the problem and then turned the page.

On the second page was written: For 95 points: Which tyre?
